Emmanuel KWIZERA

Software Engineer

Am passionate developer with 3 years and 9 months of experience, in my daily work I use Laravel Framework , reactJS on front end side and Flutter on mobile development. I have been working in different companies as back end developer, other worked as full stack developer and current am software engineer at techaffinity inc, in this journey I gained more experiences and skills like providing RESTful APIs, micro services, git, database design and implementation, self learn, teamwork sprit and I enjoy to be a problems solver, etc.
